This house was built in 2018 and is perfect down to the last detail. You enter a very tastefully decorated living room with a very spacious kitchen. The kitchen itself is fully equipped, including all electrical appliances. There are 2 large bedrooms with stylish fitted wardrobes and 2 bathrooms, 1 of which is ensuite (with rain shower). Oh yes, the entire apartment also has underfloor heating and of course, there is air conditioning everywhere. Through the living room, you reach a beautiful terrace (to be available) with a beautiful view of the very beautiful and well-maintained communal area. From the terrace, you can take the stairs to a large solarium (70 m²) that gives you beautiful views of the salinas or the entire community. There is a large pergola that protects you from the sun not only from above but also from the side if desired. There is also an outdoor kitchen and the solarium also has a reinforced area where you can have a jacuzzi installed if desired. Some furniture is included in the sale and another part is negotiable. We have a complete inventory to go over with you. If you also want to take care of your transport at the same time, there is even the option to take over a car (Ford S-Max). That car you can park in your private parking spot next to your very spacious storage room. The house is located in Torrevieja, more specifically in the Aguas Nuevas neighborhood. In addition, the beaches Playa de La Mata, Playa de Los Locos, and all the necessary services and shopping centers are just a stone's throw away.
